DRYMEISTER®

Gets Those Last Water Drops

DryMeister is a bottle drying wand that removes leftover water drops and trapped moisture. From water bottles and baby bottles to wine glasses, vases, travel mugs, hydration bladders, decanters, and even silicone bags - DryMeister dries residual moisture, preventing the buildup of mold, scum, bacteria, and odors.

Made from BPA-free, food-safe, and lint-free materials, it's perfect for delicate, hand-wash-only, insulated, and uniquely shaped containers. With DryMeister, enjoy a completely dry finish, less hassle, and a clutter-free countertop, no heat required!

US Patent 11,369,251
European & UK Patent EP3974071

- Flexible handle
- Reusable drying heads
- Easy to use
- Leaves a dry, streak-free finish
- A clean alternative to using dirty dish towels for removing leftover water drops and trapped moisture
- Individually wrapped drying heads stay clean and dry until ready to use
- Disposal of drying heads is at the user's discretion
- Refills available in 2 sizes and sold separately
